Eric Bruner

PRAISE

"Eric is creativity personified   a champion of innovation, constantly pursuing the new and the different. I've had the pleasure to work directly with Eric for over 15 years building products and delivering services. He never missed an opportunity to try a new tool or technology, always with the intent of providing a new way to make our customers more productive. In each iteration of our working relationship and our corporate focus, Eric brought energy, perspective, and a great sense of humor. I'm grateful for the opportunity to have worked with him."

—VP, Product Development

"As a leader, Eric always made time for team development; he had a keen sense of when someone needed growth; and he consistently looked for ways to share praise, recognize accomplishments, and make individuals feel appreciated. His technical knowledge and his empathy with his people are unsurpassed."

—VP, Business Operations

Eric Bruner is a Solutions Architect for The Ken Blanchard Companies®. He focuses on the integration of technology, learning, performance, and organizational effectiveness through a collaborative and innovative style that emphasizes business value and workflow effectiveness.

Eric's professional experience includes more than 25 years of enterprise-wide technology implementation, project management, software product management, customer service and support, research and design, technology vendor management, and business operations. With a devotion to user centric design and a pragmatic view of what is necessary and what is possible, Eric has a proven history of helping his clients move forward in a coordinated, results oriented manner.

Eric demonstrates passion for evolving technology in the learning marketplace and has developed business partnerships with many of the leading technology vendors to support customer needs and initiatives. Eric has been a frequent speaker at the Chief Learning Officer and Elliott Masie and SAP SAPPHIRE conferences.

Among his previous professional roles are multiple positions at the US Navy, GE, RWD Technologies, Ancile Solutions, and GP Strategies serving in various operational, business development, and consulting capacities ranging from project manager, director of software products, director of business operations, chief technologist, and chief of innovation.

Eric received his undergraduate degree from The United States Naval Academy and his M.S. in Engineering Management from the Catholic University of America. In his spare time, he enjoys golfing, hiking, mountain biking, and woodworking.
