LEADING PEOPLE THROUGH CHANGE®

Create a Culture of Change Readiness

Change can be hard. It doesn’t have to be.

Organizational change is a fact of business life. Reorganizations, mergers and acquisitions, technology implementations, and other business initiatives are disruptive because they require large numbers of people to change their behavior at the same time.

You want to successfully navigate change initiatives without derailing productivity or morale. It can be frustrating to see change efforts fail because managers don’t have the resources or skills to guide their people through them. Failed or stalled change initiatives waste time and money, reduce productivity and engagement, and increase employee turnover.

It doesn’t have to be this way. At Blanchard®, we know the most successful companies are agile and embrace change as part of their culture to stay ahead of the competition. We know how to equip your managers with what they need to get buy-in and commitment and create a culture of change readiness.

Our Leading People Through Change® program teaches your executives and managers how to lead successful change efforts by understanding the predictable stages of concern and adjusting their leadership style. Being able to successfully navigate change positively affects morale, builds momentum toward key goals, and gets results faster.
THE PROVEN FORMULA TO DEVELOP CHANGE LEADERS

Leading People Through Change® applies to change initiatives of all types and sizes. Workshops can be delivered to an intact team working on a specific change initiative or in an open enrollment format. Workshops are available as in-person or live virtual sessions.

DURATION AND MEDIUM

- Specific change initiative: 1–1.5 days in person or 3 or 4 two-hour virtual sessions
- Open enrollment: 1 day in person or 3 two-hour virtual sessions
- Extra 0.5 day if Tipping Point® simulation is added; available only in person
- 1.5- to 3-hour Executive Overviews also available; available only in person

Blanchard’s expert change consultants train your leaders how to proactively surface and diagnose people’s predictable questions and concerns during change. Your leaders will learn to flex and match their leadership behaviors to the needs of their people.

When people are given the opportunity to be involved in the process and their concerns are heard and addressed, they are less likely to resist change. When you have buy-in and commitment early on from the people you are asking to change, they will feel good about the direction of the organization and you’ll get results faster.

Don’t risk wasted time, effort, and money on a failed change initiative. Equip your leaders to make sure it’s a success.
